NEW INNOVATIONS

A variety of AVA® LVT options have just arrived, featuring large plank and tile sizes in new colorways. Meticulously designed hardwood styles with soft wood grains (2DSGN). Unique distressed and modern concrete patterns plus organic blends (MRGE). Contemporary and rustic loose-lay oak planks (RYME). Vibrant colors with a distinctive sparkle (ORBT). Find new design inspiration at avaflor.com.

AVA[®]

With worldwide sales offices and distribution partners, AVA[®] is a leader in the design and manufacturing of innovative and sustainable resilient flooring that improves quality of life and cares for our environment with its category-leading sustainability program

Made by Novalis Innovative Flooring, a worldwide leader in luxury vinyl flooring since 1984, AVA brings unsurpassed quality in its aesthetic design and manufacturing for the commercial market.

AVA has developed a diverse range of designs and products that have won numerous awards and are recognized by the industry as setting the benchmark in LVT. New plank, tile and sheet colors and patterns; oversized plank and tile sizes; and innovations in constructions and finishes highlight some of AVA's advantages.

AVA products meet some of the world's strictest VOC emission limits, earning FloorScore, Indoor Advantage Gold, and GREENGUARD Gold certifications. All AVA products are 100% free of formaldehyde and ortho-phthalates and can help projects gain points for the LEED and WELL building systems.

AVA EDUCATION

AVA LVT delivers a variety of options for education, including modern concretes, weathered woods, reflective speckles and colorful styles that maintain their vibrant appeal thanks to more scratch resistance over typical coatings. Learning environments become even more effective with flooring options and designs that help students relax, engage and focus. Find new design inspiration at avaflor.com.

The Advantage for all AVA[®] products: AMP Advantage

ENHANCED POLYURETHANE FINISH

AVA[®]'s patented AMP Advantage finish technology leads the market, offering 30% more scratch resistance than typical coatings and featuring a diamond-like crystal structure that exceeds the hardness of tungsten and aluminum oxide.

- Patented coating with a low-gloss finish
- Exceptional strength and resistance to wear
- Flexible, resists fading and non-brittle
- No "white scratches" like other coatings that scratch or break
- Safe for the environment: an organic agent, no VOCs, no metal content

**30% more
scratch resistance

AVA[®]

Sustainability

AVA[®] products meet some of the world's strictest VOC emission limits, earning FloorScore[®], Indoor Advantage Gold, and GREENGUARD Gold certifications. All AVA products are 100% free of formaldehyde and ortho-phthalates and can help projects gain points for the LEED, WELL and Fitwell credits.

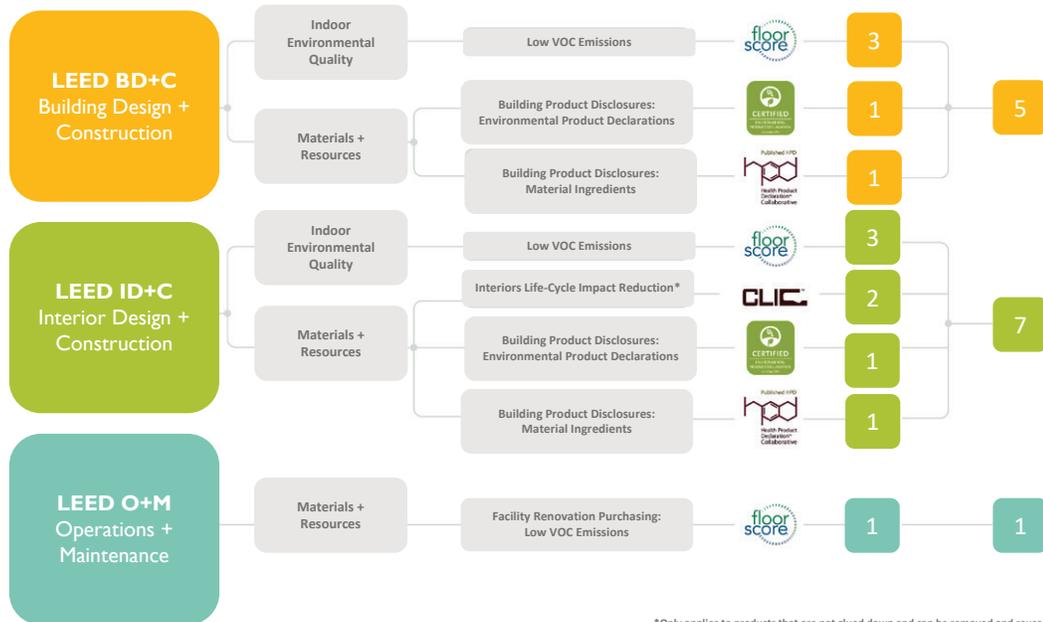

AVA is committed to complete transparency in its products, featuring Declare labels and Health Product Declarations to display a listing of product components. Environmental Product Declarations disclose the impact of the products across their entire life cycle from raw material to end-of-life.

This commitment to sustainability extends to AVA's production facilities, which have been designed with impact reduction in mind. AVA's production process reuses both water and excess material from manufacturing.

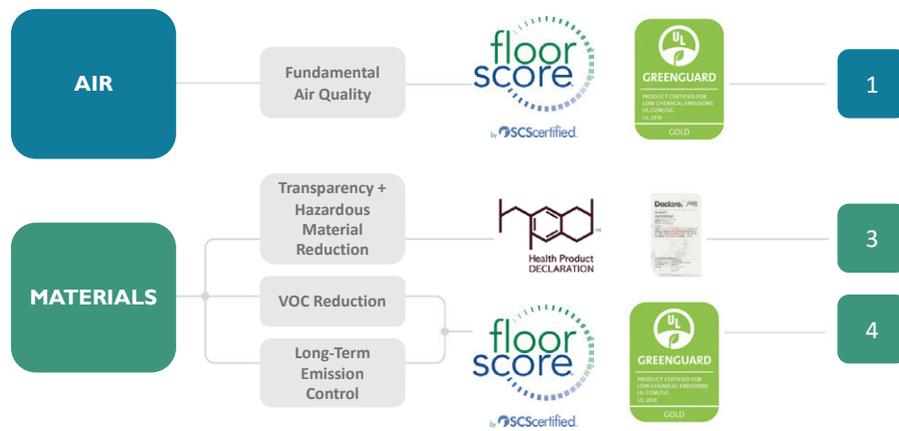

How AVA contributes to LEED & WELL credits

LVT LEED v4 Point Contributions
