AVA® HEALTHCARE SOLUTIONS

AVA® and Healthcare

AVA® LVT enhances the healthcare experience by delivering beauty and style affordably, as well as low maintenance, to stay looking new.

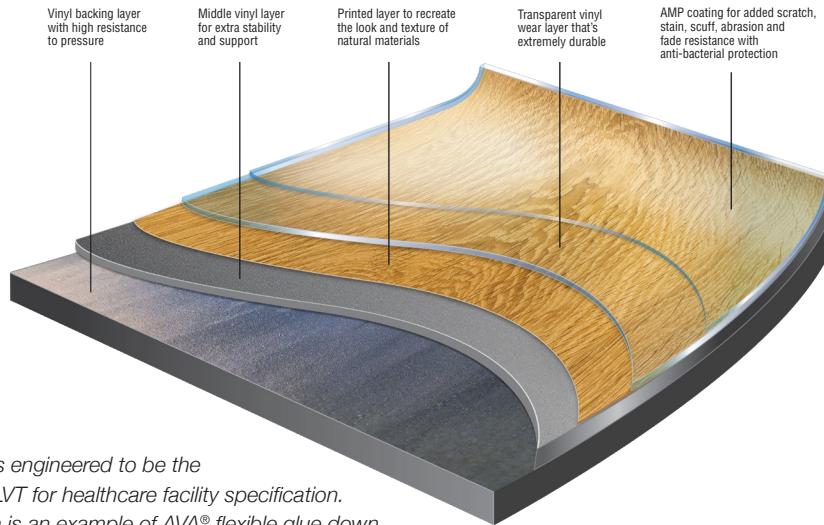

According to a recent article in a leading flooring magazine, “Patient satisfaction surveys no longer point to just better food, more blankets and single-occupant rooms ...”.

Higher quality healthcare experiences are desired by everyone. As a result, the quality and style of flooring in healthcare facilities becomes an even more important decision.

AVA® LVT and Sheet flooring is ideally suited to deliver a better healthcare experience.

Of all the flooring options available to designers and architects of clinics, hospitals, hospice facilities, physician offices and other health-related spaces, AVA® delivers numerous advantages – many simply by virtue of its construction.

AVA[®] by NOVALIS[®] INNOVATIVE FLOORING

AVA[®] is engineered to be the finest LVT for healthcare facility specification. Shown is an example of AVA[®] flexible glue down flooring designed for installation with adhesive.

AVA[®] is produced in a zero-landfill manufacturing facility, where all processing water and all production waste are 100% recycled in a closed loop system. With our low-carbon production, we have decreased 78% of steam consumption and use 100% natural gas. Over 85% of our raw materials are sourced within 500 miles of our plant. All Novalis[®] flooring is 100% recyclable and is made with 100% virgin vinyl that is 100% phthalate free. All our products are REACH and CE compliant, FloorScore[®] certified and are reported with transparency by means of Health Product Declaration (HPD), Environmental Product Declaration (EPD) and Declare[®] labeling.

Declare.

Anatomy of LVT

There are many variations of construction, but all LVT flooring has one thing in common: layers that are fused together under heat and pressure to make a tough, durable flooring product.

However, not all LVT flooring is made alike. As with any product, the critical differences are found in the quality of materials that go into the LVT, how the LVT is made and the experience of the maker.

AVA® LVT has these advantages

- *Durable and long lasting*
- *Superb design aesthetic and authentic reproduction of natural materials, such as wood or stone*
- *Low care and maintenance*
- *Ease of installation and ownership*
- *100% phthalate free*

Eye Doctors of Lancaster require durable flooring solutions such as AVA® LVT that can handle high traffic wear patterns.

AVA® LVT is an excellent flooring specification for common areas such as hallways, reception areas and nurses' stations because of its easy care and maintenance.

The AVA® DSGN® plank collection features 24 wood styles available in three options: Glue Down (6" x 48"), Loose Lay (9" x 48"), and 5G Clic (7" x 48").

AVA DSGN™

AVA® SNSE® specified by Barnes Gibson Partners Architects for LaGrange College School of Nursing, LaGrange, Georgia.

AVA® SNSE® design can turn hallways and corridors into a visually exciting space that performs well under high foot traffic.

AVA® SNSE® colors can be used to make a fun and exciting environment for pediatrician or pediatric dentist waiting areas.

AVA[®] SNSE[™]

The AVA[®] SNSE[™] collection comes in 8 flowing grain saturated colors and 8 flowing grain complementary neutrals. Tiles are 12" x 24" and are 100% phthalate free.

Designer: Bath at Blue Fox Designs

AVA® DSGN® stone design tiles were used to create the striking pattern in this physician office suite.

AVA® DSGN® Tuscany Oak Snow looks clean and clinical, yet with a warm and friendly feel in exam rooms.

AVA[®] DSGN[™]

The AVA[®] DSGN[™] tile collection comes in 8 stone and concrete styles that are available in three formats: Glue Down (12" x 24"), Loose Lay (18" x 36"), and 5G Clic (12" x 24"). All come with a 10-year commercial warranty.

AVA® SPRK™ color way choices allow the floor to become an integral part of the space design as in this physician office waiting room.

AVA® SPRK™ is an ideal way to create colorful patterns.

Explore all the possibilities of AVA® by visiting AVAFloor.com and using our Room Visualizer.

AVA[®] SPRK[™]

The AVA[®] SPRK[™] collection is made up of 38 color ways in 18" x 18" dry back tiles with 20mil wear layer and antimicrobial protection. Tiles are 2.5 mm thick and straight-edged. And as with all AVA[®] flooring, SPRK[™] is FloorScore[®] certified and 100% phthalate free.

AVA[®] NTRGE[™]

AVA[®] NTRGE[™] collection is a PVC-Free Sheet that is 4.59' x 65' for glue down installation. It has excellent stain, chemical and scratch resistance and is easy to clean with no waxing needed. NTRGE[™] comes with a 10-Year Commercial Warranty.
