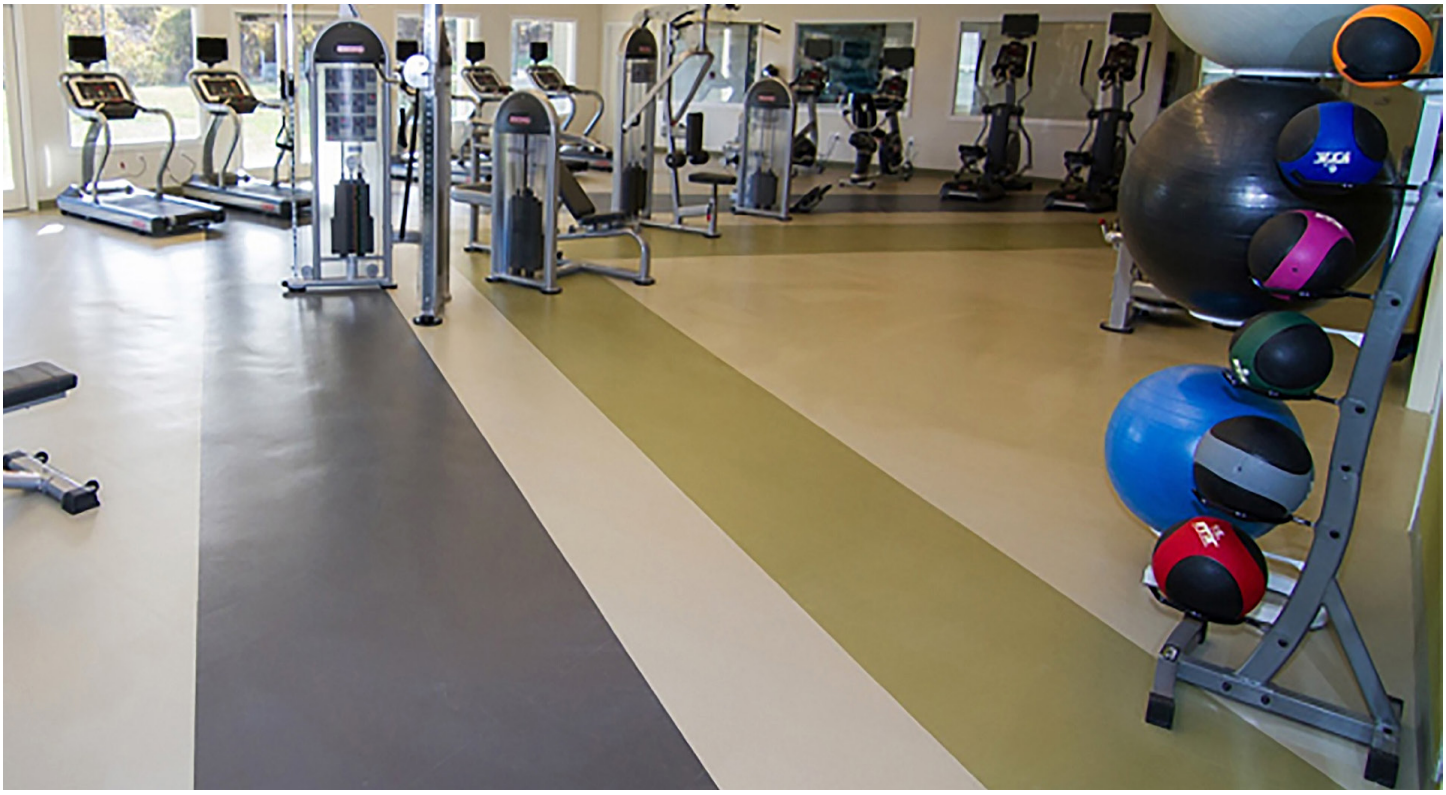
Sequel rubber cork tile

800.492.2613 • capricollections.com



Sequel is a vulcanized rubber tile manufactured with a homogeneous blend of SBR and natural cork. The durability and dimensional stability make Sequel an excellent choice for most commercial applications. Offered in square edge tiles, Sequel is soft under foot and offers excellent resistance to abrasion, impact, scuffs and many common chemicals.

Sequel is easy to maintain, does not require a floor finish, and can be continually restored by dry-buffing which decreases the long term maintenance cost and use of harmful chemicals.

Offered in 24 standard colors, AND/OR is a unique blend of rubber granules and cork that is suitable for application on floors and/or walls.

Thicknesses: 3.2, 4, 6, 8, 9, 12 mm • Roll size: 4' wide • Tile sizes: 24" x 24" & 12" x 24" • Interlocking Tile (8 mm or greater): 24" x 24"

For floors AND/OR offers great slip resistance, good sound absorption, comfort under foot, durability and can handle rolling loads.
For vertical applications AND/OR can be used as tackable surface, wall protection or to wrap columns.

AND/OR requires finish coats for all floor installations (including fitness areas), vertical installations below chair rail, and floor to ceiling installations.
Finish coats are optional on vertical installations above chair rail height and when used as tackable surfaces.

Made with 34% recycled content, shade variations are possible. Skive/knife marks from the manufacturing process are inherent.
